Babs2 domain model

Weather

cloud_cover integer
date date
events string
max_dewpoint_f integer
max_gust_speed_mph integer
max_humidity integer
max_sea_level_pressure_in decimal
max_temperature_f integer
max_visibility_miles integer
max_wind_speed_mph integer
mean_dewpoint_f integer
mean_humidity integer
mean_sea_level_pressure_in decimal
mean_temperature_f integer
mean_visibility_miles integer
mean_wind_speed_mph integer
min_dewpoint_f integer
min_humidity integer
min_sea_level_pressure_in decimal
min_temperature_f integer
min_visibility_miles integer
precipitation_in decimal
wind_dir_degrees integer
zip_code string

Trip

bike_id integer
duration integer
end_date datetime
end_station string
end_terminal integer
start_date datetime
start_station string
start_terminal integer
subscriber_type string
trip_id integer
zip_code string

Station

data_dump text
dockcount integer
installation date
landmark string
lat decimal
long decimal
name string
notes text
station_id integer
